PROFESSIONAL SUMMARY

Data science graduate student with hands-on experience in data analysis, statistical modeling, research workflows, and operational coordination.

EDUCATION

University of Wisconsin–Madison

M.S. Data Science in Human Behavior | Expected December 2026 | Current GPA: 4.0

James Madison University

B.S. Psychology, Minor in Data Analytics | GPA: 3.63

DATA & ANALYTICS EXPERIENCE

University of Virginia School of Medicine – Neurology

Data Technician | June 2022 – September 2022

- Worked with raw physiological waveform data and structured patient database records to support research analysis workflows and generate/evaluate autonomic predictors for SUDEP.

DreaM Lab – James Madison University

Research Assistant | August 2022 – May 2023

- Assisted in data collection, research design, statistical analysis, and communication for multiple related cognitive and behavioral research projects.

University of Virginia

Data Curation Assistant | June 2018 – June 2020

- Curated, consolidated, and organized publication data to improve database quality, accuracy, and accessibility.

Charlottesville-UVA-Albemarle Emergency Operations Center

EOC Assistance | April 2020 – May 2020

- Supported resource tracking and operational coordination during COVID-19 response efforts using Veoci.

TECHNICAL SKILLS

- **Programming & Analysis:** Python, R, SPSS, Statistical Analysis, Predictive Modeling, Machine Learning
- **Data & Reporting Tools:** Excel, Qualtrics, REDCap, Veoci
- **Analytical Strengths:** Data Cleaning, Visualization, Domain Literature Review, Implementing New Tools
